### Free resource for finding peer-reviewed research

Idaho residents have free access to LiLI-D, a statewide database, brought to Idaho Residents by the Idaho Commission for Libraries and Idaho Public Schools. Additional support for LiLI-D comes from the Institute of Museum and Library Services. The LiLI Databases (LiLI-D) are online services providing full-text articles from magazines, professional journals, newspapers, and reference books free to all Idaho residents. Idaho Residents may login at: <http://www.lili.org/portal/login.php> or through their local public library website.

Idaho residents should contact their local public library for obtaining their login instructions. Many Idaho libraries subscribe to additional databases providing additional services for their patrons. Idaho residents living in remote, rural areas may also obtain access online by completing a form: <http://www.lili.org/portal/password.php>
